

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Deborah Roberts
DOCKET NO.: 03-21164.001-R-1
PARCEL NO.: 05-34-212-003-0000

The parties of record before the Property Tax Appeal Board are Deborah Roberts, the appellant, by attorney Michael Griffin of Chicago, and the Cook County Board of Review.

The subject property consists of a 96-year-old, two-story, single-family dwelling of frame construction containing 2,520 square feet of living area and located in New Trier Township, Cook County. Features of the residence include two full bathrooms, a full-unfinished basement, air-conditioning, two fireplaces and a two and one-half car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, a photograph of the subject, Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of stucco or frame construction with the same neighborhood code as the subject. The improvements range in size from 2,418 to 2,609 square feet of living area and range in age from 75 to 98 years. The comparables contain from one to two and one-half bathrooms and a fireplace. Three comparables contain a finished or unfinished basement, three comparables have a one-car or two-car detached garage and one comparable has air-conditioning. The improvement assessments range from \$15.16 to \$18.49 per square foot of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$ 17,434
IMPR.:	\$ 53,239
TOTAL:	\$ 70,673

Subject only to the State multiplier as applicable.

area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$70,673. The subject's improvement assessment is \$53,239 or \$21.13 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 2,130 to 2,568 square feet of living area and range in age from 94 to 107 years. The comparables contain two, two and one-half or three full bathrooms, a finished or unfinished basement and a two-car garage. Two comparables contain air-conditioning and two comparables have a fireplace. The improvement assessments range from \$20.63 to \$25.03 per square foot of living area. The board of review's evidence disclosed that the subject sold in November 2000 for a price of \$1,000,000. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. These eight properties have improvement assessments ranging from \$15.16 to \$25.03 per square foot of living area. The subject's per square foot improvement assessment of \$21.13 falls within the range established by these properties. In addition, the subject's per square foot improvement assessment is lower than three of the eight properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

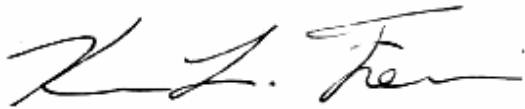

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
